PRODUCT INFORMATION

The Tailor chair has a beautiful character with an exceptionally comfortable shape and many well-designed details. It can easily be disassembled and dressed in different fabrics.

"Different patterns for clothes have inspired me in my work on Tailor, and this gives the chair a unique character. The way the seat and the backrest are put together are highlighted with buttons, an important aesthetically detail. The buttons are the same shape as the buttons that were on a coat my grandmother used to wear. A small detail which means a lot to me. Every part of this chair is designed for maximum comfort. You could say that the chair is tailored for the body", says Louise Hederström.
